Keeping what's important intact.

Nothing can shatter your confidence more than a break-in. Add a level of safety and security with 3M™ Safety and Security Window Films combined with 3M™ Impact Protection Attachment (IPA) Sealant.

- Windows are one of the weakest points on your building or home
- 3M™ Safety & Security Window Films combined with 3M™ Impact Protection Attachment Sealant makes it more difficult to get through your window, helping to reduce your losses during smash and grab crimes.
- May provide added protection to property from smash and grab burglaries
- Helps protect your occupants from broken glass hazards
- 3M™ Impact Protection Attachment (IPA) Sealant anchors the film to the glass frame, supplying additional protection if the glass is broken

Protected by 3M™ Window Film

Home.

While potential intruders will not be stopped from entering you home; 3M™ Safety & Security Window Film combined with 3M™ Impact Protection Attachment (IPA) Sealant may delay forced entry and help provide extra response time by slowing the intruder down.

Work.

In 2012, over \$15 billion dollars were lost due to property related crimes.* You need to display your merchandise next to your windows, but your windows are one of the weakest points of entry on a building. 3M™ Safety & Security Window Films combined with 3M™ Impact Protection Attachment Sealant makes it more difficult to get through your window, helping to reduce your losses during smash and grab crimes.

School.

Provide protection to people and property by using 3M™ Safety & Security Window Films Ultra Series combined with 3M's IPA Attachment Sealant to help secure the broken glass within the frame and help prevent glass fragments from falling from windows, balconies and guardrails We are proud to say that 3M™ Safety and Security Window Films combined with 3M™ Impact Protection Attachment Sealant have already been incorporated into thousands of schools.

Security with a payback.

3M Security Window Films can include solar energy rejection, which helps reduce air conditioning costs, saving you money.

Global Crime Statistics*

Property Crimes
Occur every 1 second
Nearly 100 million reported annually

Provide protection to people and property at 3M.com/WindowFilm.

CAUTION: Many factors can contribute to potential damages arising from wind, impact, bomb blast, or break and entry incidents including the window film solution selected, type and thickness of glass, building construction, exterior pressure, proximity of impact occurrence, quality of window or door frames, intruder size and strength, and type of tools used to gain entry. While the 3M™ Safety & Security Window Films Ultra Series combined with the 3M™ IPA Impact Protection Attachment Sealant may help reduce the occurrence of flying glass shards under certain conditions and potentially delay intruders, these films do not prevent property damage, personal injury or death due to these incidents. Window films are not bulletproof and not designed to stop intruders. Customers should consult with security professionals prior to selecting any window films to determine suitability for the intended application and environment.

IMPORTANT: 3M™ Safety & Security Window Films must be installed with the 3M™ Impact Protection Attachment (IPA) Sealant for all applications except those installed solely for the purpose of privacy, heat resistance and UV protection.

IMPORTANT NOTICE: This product is not approved in the State of Florida for use as hurricane, windstorm, or impact protection from wind-borne debris from a hurricane or windstorm. In compliance with Florida
